p.14

TEACHING ARABIC

page 14

Teachers of Arabic and other world languages will improve students' ability to communicate in Arabic by using the 5Cs from the ACTFL World Readiness Standards for Learning Languages. Learn about the new *Teaching Arabic* classroom collection, produced by WGBH Boston with Qatar Foundation International and ACTFL.

READING & WRITING IN THE DISCIPLINES

page 8

The NGSS and Common Core call upon teachers to focus instruction not only on understanding concepts and learning skills, but also on using and communicating ideas. Learn the research behind discipline literacy in mathematics, science, history/social studies, and English/language arts and activities and tools to integrate into content instruction.

ESSENTIAL LENS: ANALYZING PHOTOGRAPHS ACROSS THE CURRICULUM

page 9

Photographs are documents and data that convey content and promote analytical skills of looking at context and scale of an image. Learn how to research photographic collections and guide students' use of photographs to enhance their understanding of a topic, an era, an event, or a discovery.

MORE FROM ANNENBERG LEARNER

Available Formats

- DVDs full series or single discs. Call 800-LEARNER for current pricing and pricing on single discs. **Prices listed in catalog are subject to change.**
- Closed-captioned or subtitled DVDs for most series.
- Audio described DVDs for select series by request.

Cross-Curricular Connections

Look for the Curriculum Connection boxes throughout the catalog that identify suggested resources to create a more integrated curriculum.

Why purchase DVDs when the videos stream free online?

Educators often ask us why they should purchase a series on DVD, when we offer them streaming free from our website. Here are some reasons to consider purchasing a series:

- DVDs offer better image quality, especially when viewing programs in the classroom at a larger size.
- DVDs are chaptered for easy navigation to the content you are showing in class.
- DVDs offer dependable play, should your internet streaming slow down or stop completely.
- DVDs are an excellent investment for schools and libraries. The videos are made by award-winning educational video producers who work with the leading scholars and experts in each discipline area, and they are vetted by practicing teachers before they are finalized.

Graduate or Professional Development

Credit and CEUs for Teachers

Advance your career, sharpen your teaching skills, and update content knowledge in the subjects you teach with graduate credit and CEU opportunities for Annenberg Learner courses from PBS TeacherLine and Colorado State University. *See page 81 for more information.*

Distance Learning Licensing

Colleges, universities, institutions (i.e. Bisk Education), consortiums, and government agencies (i.e. Department of Education), can license courses and workshops to offer for undergraduate credit. Developed by leading scholars in their discipline, these content and professional development courses include field footage, demonstrations, education research connected to teaching practice, and active classrooms. They are equally useful for undergraduate students in education courses and in all curriculum areas. For more information, go to www.learner.org/telecourses/index.html or call 800-LEARNER x 3.
