

## Getting Ready for Hummingbird Migration

Identify and label on your own map:

- The latitude and longitude lines.
- The countries, states and provinces where Ruby-throated hummingbirds overwinter and breed.
- The countries, states and provinces where Rufous hummingbirds overwinter and breed.
- The places where BOTH species can be found in the winter.
- The places where BOTH species can be found in the breeding season.
- Title your map.
- Make a key that clearly shows the location of each species.
