

Pondering Change Data Sheet

Answer the following questions about your EcoColumn in the spaces provided.

Do you think the objects in your EcoColumn will change within the next *week*? If yes, which ones, and how and why they will change?

Within the next *month*? If yes, which ones, and how and why they will change?

Within the next *two months*? If yes, which ones, and how and why they will change?

When do you think you will detect your *first change*? What do you think that change will be? How will you detect it - sight, smell, sound, touch?

How can you *monitor, measure and document* the changes that you observe in your EcoColumn?

PONDERING CHANGE DATA SHEET

Use this table to document changes in your EcoColumn.

Date	Object(s)	Change observed	Possible reason?
